

## An Ideal Remedy For Nursing Mothers

Compound of Simple Laxative Herbs  
Safe for Boy and Mother.

Constipation is a condition that affects the old, young and middle-aged, and most people at one time or another need help in regulating the action of the bowels. Harsh cathartics and purgatives should not be employed to relieve constipation, as their effect is only temporary while they shock the system unnecessarily.

A remedy that can be used with perfect safety for the tiniest babe and that is equally effective for the strongest constitution is found in the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores everywhere for fifty cents a bottle. This is an ideal household remedy and should be in every family medicine chest.

Mrs. F. I. Barsolow, 18 Leslie St., Holyoke, Mass., wrote to Dr. Caldwell, "Syrup Pepsin certainly is fine. I gave it to my baby, Evelyn, and also took it myself. It is the only medicine affecting Baby in the nursing. I

EVELYN BARSOLOW

have used it for all four children and it is fine; they like it and ask for it." A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

## A Christmas Wish

Toyland, U. S. A., Dec. 1, 1915.

### Dear Kiddies and Grown Ups:

America is at peace with all the world, therefore I can go all over our glorious country unmolested, bring "Peace and good will to all men" and happiness to the unbroken family fireside.

I like the Southland at Christmas time with its snap of cold mingled with bright warming sunshine, and have sent out my advance agents to all Southern towns and cities to locate for me the most advantageous headquarters.

After looking over Union, S. C., they reported a Ten Cent Store with a Dollar Limit well equipped for my headquarters, this was just what I wanted for here I can put on display Toys and Holiday Goods that will be in reach of the purchasing allowance on any pocket book.

The Ten Cent Stores make it possible for me to visit both the cottage and the mansion, thus bringing happiness to everybody.

I am now installed at McClure Ten Cent Company, The Home Store, ready to "Deliver the Goods"; here I will be glad to meet the people of Union, and its surrounding country.

Goodbye little folks until Xmas morning and wishing happiness and good cheer to all, I am,

Your friend,

SANTA CLAUS.

## Suffered for Years

There are many people who will be interested in the experience of Mrs. Julia Byard, Fort Mont. She writes:

"I suffered for years with gall-stones. A friend wrote me about Fruitola and Traxo. I started taking it and am completely cured now and feel better than I have felt for twenty years."

Mrs. Byard's testimony is similar to that of many who have given this remedy a chance to help them. Fruitola is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural way. A single dose is usually sufficient to clearly indicate its efficacy. Traxo is a splendid tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion, and removes bile from the general circulation.

Fruitola and Traxo are prepared in the Pinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Union they can be obtained at Milhous Drug Co.

### WHY THEY SUIT EACH OTHER.

"You and Grump seem to get along pretty well."

"Yes. You see he never borrows anything but trouble and that's all I ever had to lend."—Boston Transcript.

Marrying a man to reform him is like making a good omelet out of a bad egg. Maybe it can be done.

Union, S. C., R. 3, Dec. 8, 1915.

Dear Santa Claus:

Please bring me some fire crackers, some fruits and an automobile.

Merry Xmas to you.

Brooks Bailey.

### The Best Hot Weather Tonic

GROVE'S TASTELESS CHILL TONIC enriches the blood, builds up the whole system and will wonderfully strengthen and fortify you to withstand the depressing effect of the hot summer. 50c.

## JONESVILLE

Jonesville, Dec. 13.—Twenty-six horses were sold at auction here last Friday. They were Tennessee stock and they brought fair prices from \$125 to \$200. The sale attracted men here from Union, Kelton, Pacolet and other places.

The sad news reached Jonesville this morning that Mrs. Lizzie Wactor died at her home in Columbia yesterday. Mrs. Wactor was a daughter of Mr. and Mrs. Munro Whitlock and was born and reared near Jonesville. She had many friends all over this community who will be sorry to hear the sad news.

The bazaar conducted by the ladies of the Methodist church last week was quite a success. About \$100 was taken in, which will be applied to church purposes.

Rev. W. B. Justus held his first services here Sunday for this conference year.

The first quarterly conference will be held here the 2nd Sunday in January.

Dr. M. W. Chambers will leave today to attend the annual communication of the Grand Lodge A. F. M., which convenes in Charleston tomorrow.

The good fall weather came to an end here last Friday. The snow Saturday was about two inches thick, the first of the season. The bad weather set in last year the first of December and it held on well into the spring.

I didn't see an automobile out during all day Sunday.

Mrs. Samuel M. Lipscomb of Brunswick, N. J., is visiting her mother, Mrs. C. C. McWhirter, on Hames avenue.

I spoke last week in my article of Woodrow Wilson, Wm. Jennings Bryan and Henry Ford being three of the greatest men on earth and I should have added Thomas Edison to the trio and made it four of the greatest men.

I wish to write something of the automobile which has lately come into use. They are used for draying and delivering freight and other commodities as well as the pleasure and joy riding and this is all very well if it is done with care and caution, but there is good reason to believe that there is much carelessness and recklessness in the driving of automobiles. I am a friend to the automobile for I own one myself and it is a source of pleasure to me. Mine is a little runabout Ford and I have named it "Little Mary" and "Little Mary" can sure scale a hill in high gear, wade a creek and jump a gully and get there on time all the same. The roads suit me very well for I can make very good time the way they are. It's the owners of the big, fine, heavy cars that want the good roads because their machines can't glide along like "Little Mary."

Editor Rice gave good advice in his editorial column last week on care and comfort of the use of the automobile. When I drive out over the country in my car I consider the other fellows have the same right of way that I, even if he is a negro driving a mule. I don't blow and try to scare him and run him in the ditch. The other day I was out driving with Mr. Henry Herring and we met two heavily-loaded wagons with cotton seed and we drove out in the ditch, stopped and gave them all the road, for it would have been a hardship for them to have even divided the road with us. We didn't lose more time than a minute and we accommodated two friends.

While in this connection I wish to say something about fast, reckless riding and driving of all sorts of vehicles across the railroad crossings. Most all the damage is laid to the railroads, it doesn't matter what the circumstances are. Let's be more liberal and give the railroads justice. I have been living between two railroad crossings not more than a quarter of a mile apart and I have never had any fears of being "run down" by a train and I never expect to get hurt on these or any other crossings because I am careful, look and listen, if I don't stop, but I see hundreds and hundreds of people rush over these crossings and never give any heed to the railroad and it is really a wonder that many more people are not hurt on the crossings than there are.

Telephone.

### WHO AM I?

I am more powerful than the combined armies of the world.

I have destroyed more men than all the wars of the world.

I am more deadly than bullets, and I have wrecked more homes than the mightiest of the siege guns.

I steal in the United States alone over \$300,000,000 each year.

I spare no one, and I find my victims among the rich and poor alike; the young and old; the strong and weak; widows and orphans know me.

I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the movement of railroad trains.

I menace thousands upon thousands of wage-earners in a year.

I lurk in unseen places, and do most of my work silently. You are warned against me, but you heed me not.

I am relentless. I am everywhere; in the home, on the streets, in the factory, at railroad crossings and on the sea.

I bring sickness, degradation and death and yet few seek to avoid me. I destroy, crush, maim; I give nothing, but take all.

I am your worst enemy. My name is CARELESSNESS.—Ex.

# Clark Clothing Co. Big Christmas Sale

Our Christmas Gift to you! To keep the ball rolling, we are giving 20 per cent. off on all Boys Suits. This sale will continue through Christmas Eve, FRIDAY, DEC. 24.

We have a suitable and useful line of

## PERUNA

A STANDARD FAMILY REMEDY

For over forty years it has been used as A TONIC AND STOMACH REMEDY. Peruna aids the appetite and gives new life to digestion.

### THINGS SCIENCE CAN'T EXPLAIN

What sleep is.

How an eye sees.

What electricity is.

How a firefly lights its lamp.

How a seed grows into a tree.

Where the sun gets its heat.

Why the compass points to the north.

What makes a bird build its first nest.

What happens when food is oxidized in the system.

What change takes place in iron when it is magnetized.

What makes rain fall in some places and not in others.

How a bloodhound tracks a man by the smell of his footprints.

What makes an apple fall to the ground and not fly off in the air.

How a bird can fly in the dark through a forest without hitting the trees.

How glands that are identical in structure secrete absolutely different fluids.

Why iron alone, and iron only in particular States, is capable of being magnetized.

What happens when two volumes of hydrogen and one of oxygen are combined to form water.

The difference between a live man and a dead man, or a live dog and a dead dog—in other words what life is.—New York World.

### LIKE A REG'AR SCOUT.

I gits up soon and I stays up late. But I takes good care not to state. How I moves aroun', in and out, Lookin' for things like a reg'lar scout.

Close to de middle of ebery night I takes a trip, 'less de moon's too bright.

Chickens rooste high or close to de ground.

Makes no difference if I's aroun'.

I've got a reach dat's de envy of all De coons in town—I's somewhat tall. To 'scape me chickens must do fast work.

When I 'gotiates my patent jerk. I've reach'd for 'em now for quite a spell.

But all de partie'lars I'd just not tell—It's cold in jail, I'd rather be out. So 'scuse me, I 'members what Ise about.

—Fort Mill Times.

## Christmas Sweets

Good for Every Occasion, and best of all. They safeguard Health and Make Good Living Cost You Less.
